V3

The **Outdoor Cabinet** for **All AEDs**

The AIVIA V3 PROTECTION is an eco-designed outdoor wall-mounted cabinet, compatible with all brands and models of AEDs (Automated External Defibrillators).

Designed to meet the new EU-MDR regulations, it ensures protection, compliance, and proper operation of AEDs 24/7, in all weather conditions.

Medical Device / EU-MDR – Temperature Control

Medical Device EU-MDR *

An AED cabinet is considered a medical device if it directly affects the AED's ability to function properly.

* European Medical Device Regulation

Technical Specifications
